

Programme

Ad-Hoc Seminar on Infection Prevention and Control

Wednesday, 9th April 2025, 9.00 – 11.30 am

MedUni Vienna/University Hospital Vienna
Währinger Gürtel 18-20, 1090 Vienna

www.meduniwien.ac.at/krankenhaushygiene/adhoc

**DEPARTMENT OF HOSPITAL EPIDEMIOLOGY
AND INFECTION CONTROL**

 **MEDICAL UNIVERSITY
OF VIENNA**

 **Vienna Healthcare Group
University Hospital Vienna**

Limited number of participants, therefore we kindly ask
to register until 2nd April 2025 under:
office_khh@meduniwien.ac.at

Department of Hospital Epidemiology and
Infection Control
Leitstelle 6Q (BT24), Level 6
Währinger Gürtel 18-20, 1090 Vienna

This event will be approved by the Austrian
Medical Chamber with 2 DFP Points.

Please be aware that photographs and/or video footage will be taken at
the event. These may be used for the purpose of documenting or repor-
ting the event and published in print and online media, on various social
media platforms and on MedUni Vienna's website.

Programme

Infection prevention and control is constantly evolving. Cleaning plays a crucial role in preventing pathogen transmission and ensuring high-quality patient care.

Next-generation sequencing enables molecular epidemiological detection of transmissions and outbreaks with high precision over extended periods. The increasing use of data from electronic health records allows – albeit with significant effort – the automated surveillance of healthcare-associated infections.

The medicine of the future requires future-oriented hospitals that integrate established structures with new technology in the context of sustainability and resource conservation.

9.00 – 11.30 am

Molecular Epidemiology in Clinical Practice

Elisabeth Presterl*, Jan Zottl*, Julia Willesberger*

Automated Surveillance – Roadmap

- Postoperative Surgical Site Infections in Cardiac Surgery
Leander Perz*
- HOB (Hospital-Onset Bacteremia) and Interinstitutional Data Exchange OMOP
Heike Düsseldorf*, Elisabeth Presterl*

Infection Prevention in Hospital Environment and Infrastructure (New, Extension, and Renovation Projects)

Elisabeth Presterl*, Madga Diab-Elschahawi*, Beata Leeb-Zatorska*

Quality Assurance in Hospital Cleaning at University Hospital Vienna (AKH Wien)

Aleksandar Kepcjar, Gerhild Katz
Operations Department, University Hospital Vienna

Wastewater Monitoring

Jorge Salinas, Hospital Epidemiology/Infection Prevention & Control Fellowship, Stanford University

Infection Practice in Australia

Pamela Jepson-Konecny, Department of Infectious Diseases, Immunology & Sexual Health, St. George Hospital, Sydney

Discussion and Networking

*Department of Hospital Epidemiology and Infection Control, MedUni Vienna/University Hospital Vienna
